I, Vaibhav Vishal, haven't joined any courses in any other institute. Despite being in a situation hit by pandemic & the classes going online, I found the classes here almost as good & student friendly as offline classes. The teachers were super helpful & explained each & every topic in detail. The syllabus was completed in time & our doubts were answered patiently by teachers. This gave me ample time to practice & revise the concepts. I am thankful to the proper test system of FIITJEE which includes regular quizzes, phase tests, AITS's, AIITS's with concept recapitulation tests in between.

Myself, Atulya Sharma, a student of FIITJEE one year classroom program (CPA1920) (session 2019-20).

I can speak with utter confidence that every faculty at the center is very supportive and Knowledgeable. Doubt clearance is top-notch.

Even more helpful was the material, and the faculties. CPPs, AITS (All India Test Series), Ai2TS (internal) provided a fine base to determine preparation levels.

GMPs and review packages were the best part of the material, probably, which are arguably the hardest question banks anyone can offer.

Apart from that, several quizzes and tests honed my skills and concepts.

Utilizing my time with FIITJEE was very rewarding, due to which I achieved 99.95 percentile in JEE(M) (January 2020), CRL 629; 236 AIR (CRL) in JEE(A) (2020)

I am Aditya Yadav, a student of FIITJEE; one year classroom program (CPA 2021).

Originally I joined FIITJEE in class 7th to prepare for JEE and other high level examinations (like NTSE, KVPY) and also because of my desire to learn new concepts in science and mathematics. However I started my intensive preparation for JEE from class 11th under the guidance of respective subject teachers.

From my experience of 5 years of studying at FIITJEE, I can certainly claim that every faculty at FIITJEE Indore is very supportive, knowledgeable and well versed in their respective subjects. They completely cleared my every doubt.

The material provided is top notch as well. CPPs and the tests (AITS, AI'TS and various other quizzes) provided an excellent mechanism to determine preparation level and to iron out the mistakes. GMPs and review packages provided a lot of very tough questions from every topic.

Henceforth, courtesy of my great time with FIITJEE, I achieved a percentile of 99.90 in JEE Mains (April 2021) and an AIR of 430 (CRL) in JEE Advanced 2021.

Hi,

I am Anubhav Gupta a student of one year extended classroom program (2018-2019).

My decision of joining FIITJEE to prepare for JEE Advanced turned out to be a very fruitful one. The teachers are extremely supportive here and they would continuously help me excel and work hard.

During the one year, I learnt a totally new way of studying Physics, Chemistry, and mathematics and working on them.

There were regular tests like AITS, AIITS, Phase Test, Quizes which helped me find weak spots and work on them.

The healthy competitive environment motivated me to work hard and reach new heights

In the end, we were given GMP and RTPF which added a finishing touch to my preparation.

FIITJEE made a huge positive impact in my life and I will always be thankful to FIITJEE for that.

AIR - 755
